

RIGHTS RESOURCES for professionals working with young people

This briefing contains a range of resources on young people's rights for use by professionals working with young people. It includes not only resources on health and social care rights, but also resources relevant to related social determinants of young people's health.

All resources have been assessed for inclusion by Youth Access against a range of quality criteria, including relevance to young people specifically and legal reliability. However, the law is complex and can change, and published resources can become out of date, so you are advised to check the accuracy of information with a lawyer where appropriate.

About The Young People's Health Partnership

The Young People's Health Partnership works with the Department of Health, Public Health England and NHS England as a strategic partner to raise the profile of the health agenda across the voluntary sector. The partnership includes Addaction, Ambition, The Association for Young People's Health, Brook, CLIC Sargent, StreetGames and Youth Access.

We work to:

- influence and shape the health system to understand young people's needs for age-appropriate services
- equip the voluntary youth sector to work in partnership with the health system
- support young people to exercise empowered and active voices in the healthcare system

About Youth Access

Youth Access is the advice and counselling network. We promote the Youth Information, Advice and Counselling Services (YIACS) model as part of local services for young people everywhere.

Youth Access works for our members and the young people they work with.

We do this by:

- Providing YIACS with the tools they need to deliver high quality services to young people
- Building the evidence to shape policy and services that meet young people's needs
- Promoting young people's right to be heard.
