Has anyone spoken to you about...?

What we found

Any information provided prior to your stay?

Patient A

- 18 yr old young woman
- Under liver team for overdose

“I would have liked to have the implant fitted as I have not been having my contraceptive injections in hospital”

“Being away from friends and family is hard as I need them most now to help my recovery”

Patient B

- 17 yr old young woman
- Admitted from sickle cell crisis
- Previously a child in care

“I really need pain relief but I feel like nobody takes me seriously”

“They think I am used to the hospital so they do not explain things when I am here”
